

“Three years ago we moved on to Best Pale Ale Malt as our base grist, it’s the backbone of everything we brew at Beavertown. We love it!”

Logan Plant, Owner and Founder, Beavertown Brewery

BEST PALE ALE MALT

Traditional British base malt.

- Beer Styles:** Cask, Keg or Bottled Ales, Porters and Stouts, Coloured Ales, Lagers, IPAs, SMaSH Beers, All-Rounder
- Malt Flavour:** Rich Malty
- Usage:** Up to 100%

For the principal ingredient in keg, bottle or cask ales, we use top quality UK two-row barley to produce a plump, well-modified malt with good extract and enzymic activity. The versatility of this base malt lends itself to balance hoppy beers and provides a robust malty note to a Traditional Bitter or Belgian-style beer.
